Implementation

Data barrier

Data bridge

Lack of near real-time data

Gaps and inaccuracy

Missing cross-program comparisons

Rapid data delivery

Ecological barrier

Ecological bridge

Unpredictable bycatch patterns

Predictable spatial use

Distinct habitat preferences

Social barrier

Social bridge

Interest-holder conflicts
Poor communication and outreach
Lack of incentives
Volunteer programs reduce participation
External factors reducing participation
Stigmatization
Confidentiality
Regulated programs reduce participation
Discontinuity
Cost

Communication and transparency

Observable progress

Co-management

Adoption incentives

Fleet buy-in

External factors increasing participation

Implementation barrier

Implementation bridge

Difficulty assessing impact

Communication mechanisms

Limited relevance

Program outreach

Simplicity

Online presence

Tailored to user group

Volunteer based program

Clear objectives

Behavior change

Regulated program
